

AMENDMENTS TO THE CLAIMS:

Note that all the claims currently pending in this application have been reproduced below for the Examiner's convenience.

Claims 1-57 have been previously cancelled.

58. (Previously Presented) A recording device for recording at least one of image data and voice data on a detachable recording medium comprising:

- selection means for selecting a generation condition of image data or voice data;
- generating means for generating image data or voice data in accordance with the generation condition selected by said selection means;
- retrieving means for retrieving information pre-recorded in the detachable recording medium for determining a file name;
- file name determining means for determining a file name by combining a character, selected in accordance with the generation condition selected by said selection means, and a serial number, in accordance with the information retrieved from the detachable recording medium; and
- recording means for recording, on the detachable recording medium, a file including the image data or voice data generated by said generating means using the file name determined by said file name determining means.

59. (Previously Presented) A recording device according to Claim 58,
wherein the information pre-recorded on the detachable recording medium is
information for determining a plurality of characters to be used for a file name.

60. (Previously Presented) A method for recording at least one of image data and
voice data on a detachable recording medium comprising:
selecting a generation condition of image data or voice data;
generating image data or voice data in accordance with the generation condition
selected in said selecting step;
retrieving information pre-recorded in the detachable recording medium for
determining a file name;
determining a file name by combining a character, selected in accordance with the
generation condition selected in said selecting step, and a serial number, in accordance with the
information retrieved from the detachable recording medium; and
recording, on the detachable recording medium, a file including the image data or
voice data generated in said generating step using the file name determined in said file name
determining step.

61. (Previously Presented) A recording method according to Claim 60,
wherein the information pre-recorded on the detachable recording medium is
information for determining a plurality of characters to be used for a file name.

62. (Previously Presented) A recording device according to Claim 58, wherein said file name determining means determines a file name in accordance with a recording condition of the image data or voice data generated by said generating means and the pre-recorded information retrieved by said retrieving means.

63. (Previously Presented) A method according to Claim 60, wherein said file name determining step includes determining a file name in accordance with a recording condition of the image data or voice data generated in said generating step and pre-recorded information retrieved in said retrieving step.
